Implementation

We aim to keep the implementation process as simple as possible. With this in mind we have developed a 4-step process. Your in-house team can take over step 2 to help you maintain costs. The following pricing reflects implementation costs for the first module. Subsequent modules attract an implementation cost of \$1500.

Step 1 Working closely with your management team, we analyse business drivers and design an Intellidata compatible database to suit business needs	Conducted by PBS	Cost \$1500/day
Step 2 Locate data, write report/ extract from current accounting/ ERP system, or establish ODBC link	Conducted by PBS or client	Cost \$150/hour
Step 3 Transform extract data into Intellidata compatible database	Conducted by PBS	Cost \$1500
Step 4 Repeatable update process	Conducted by PBS	Cost \$1500
